Zero-Emission Services:

- 20 Electric Trucks
- 100,000+ Zero-Emission Miles
- 140+ Metric Tons of CO₂e Eliminated

Six Chargers – 12 total dispensers

- Four Zerova 120 kWh chargers
- Two SK 200 kWh chargers
- Charge 12 trucks at the same time

Hight supporting the environment

- Through our collaboration with *Evertreen*, We've donated 2,000 trees to be planted in Ethiopia and Madagascar up to 5/2024 and keep donating more.
- Our partnership with the *Ocean Conservancy* aims to clean up the oceans, addressing the pollution caused in part by our industry.

Powered by  **HIGHT ELECTRIC**
Zero Emissions Drayage Services

We uphold the values of
accountability, adaptability, loyalty, patience and respect
in all aspects of our operations.

Thank you

California & Nevada Drayage Services

International Drayage

TGS services the Ports of Los Angeles, Long Beach & Oakland daily with over 150 trucks serving southern, central and northern California as well as northern Nevada.

Domestic Intermodal Drayage

TGS services all the rail ramps in northern California (Lathrop, Stockton and Oakland) as well as the ramp in Sparks, NV.

Transload Services

TGS has several transload partners in both the Oakland and LA/LB markets to meet your needs. Dry or perishable goods; palletized, loose cartons or slip-sheeted; we have your cargo covered.

LCL Service

Our LCL service runs to/from the ports of Oakland and LA/Long Beach with empty containers daily.

TGS handles both dry and refrigerated cargo. We are also a bonded & hazmat carrier. Of course, all trucks are CARB compliant.

THE SERVICE YOU'VE COME TO DEPEND ON

US Customs Bonded

Certified Hazmat Carrier

CARB Certified Trucks

TGS Geographical Footprint

Logistically, TGS has locations strategically placed for international & domestic drayage throughout California.

F – Fresno (Corporate Office/yard) – From the central valley, TGS runs between Oakland and LA/LB ports as well as northern California rail ramps. Our Fresno yard is a 5-acre (soon to be 15-acre) yard with electronic gates, cameras and security patrol at night.

R – Reno (Office/yard) – From northern Nevada we primarily running the Reno-Oakland traffic lane, but we also handle local intermodal rail. We run both company trucks and Independent LMCs in this lane.

LB – Long Beach (Office/yards) – TGS opened our newest office in Carson in the fall of 2021. TGS has company power as well as LMCs based in Long Beach and the surrounding area. We have high security yards just a few miles from both port complexes. We are growing this market rapidly.

O – Oakland (yards) – TGS has company drivers and LMCs based in Oakland as well as high security yards within the Port of Oakland.

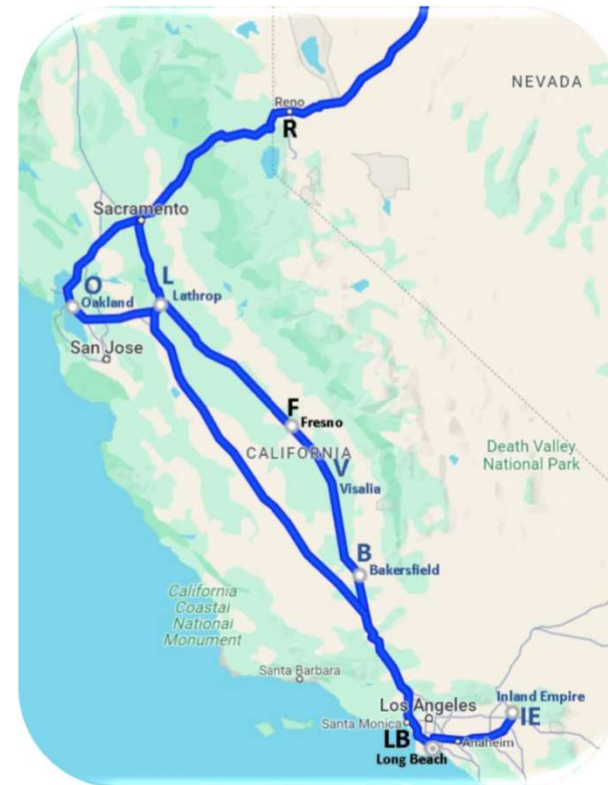

L – Lathrop (yard) – TGS has a secure yard, with electronic gates, cameras and security. We run company power and LMCs in this market.

V – Visalia (yard) – TGS has company trucks & LMCs handling loads to/from LA/LB and Oakland ports.

B – Bakersfield (yard) – TGS has many LMCs based in this area and is aggressively growing this market. **(Much more to come in 2024!)**

IE – Inland Empire (yard) – TGS has LMCs based in this area and is aggressively growing this area. **(Much more to come in 2024 here too!)**

Lime Strikes Deal For Zero-Emissions EV Shipping With Hight Logistics And Forum Mobility

Deal covers nearly **50%** of Lime's new vehicles and parts (300 containers)

51% Reduction in Scope 3 Emissions

Hauled using **20 EV** Class 8 Trucks

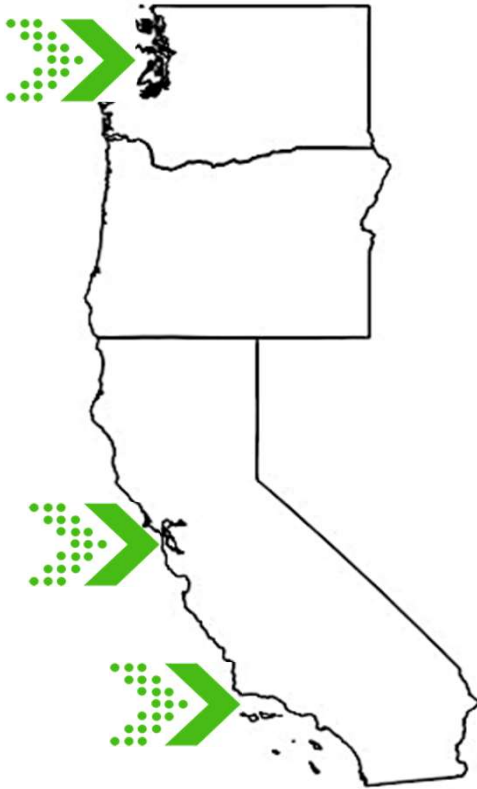

Deal allowed Hight to grow its fleet from 5 to **20 trucks** by year end 2024

"We're thrilled to play a leading part in the EV freight transition through this exciting partnership with Hight Logistics and Forum Mobility. EV shipping needs demand signals to really get moving, and given our ambitious climate goals, Lime is happy to provide them."

– Andrew Savage, VP for Sustainability at Lime
